REASONS FOR ALLOWANCE

1. Claims 1-16 are allowed.
2. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of the claims is an extended observer that estimates the input-terminal disturbance signal in combination with a modification part/function generator that modifies the servo command signal because of the estimated input disturbance signal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Taniguchi, Scholten, O'Connor, Tanaka, Schwalenstocker, Kawabe, Susaki disclose valves having signals that compensate the difference between the target value and actual value of the opening.
